SOFT SKILLS

- Problem solving and critical thinking
- Adaptability and continuous learning
- Attention to detail and time management

WORK EXPERIENCE

Systech Digital Limited – Software Engineer

2022–Now

As a Software Engineer (PHP) at Systech Digital Limited, I have been responsible for designing, developing, and maintaining dynamic and scalable web applications. My expertise spans across both frontend and backend development, ensuring seamless user experiences and optimized system performance.

Core Web BD – Junior Web Developer

2021 Jun– Dec 2021

As a Junior Web Developer (PHP) at Core Web BD, I have been actively involved in developing and maintaining websites and content management systems (CMS). My role focuses on both frontend and backend development, ensuring that web applications are user-friendly, responsive, and efficient.

PROJECTS

E-commerce Website Development

Developed a responsive e-commerce site with product listings, cart, checkout, user login, and admin panel. Used Laravel, PHP, MySQL, and JavaScript. Focused on performance, clean UI, and secure payment integration.

Meal Management System

Developed a system for managing daily meals, bazar costs, member dues, and custom monthly reports. Features include single/all user info PDF view, meal tracking, and admin dashboard. Built with Laravel, PHP, MySQL, and responsive UI.

Tender Management System

Developed a web-based tender management system with Laravel and Vue.js. Features include tender creation, bid submission, document upload, deadline alerts, user roles, and admin dashboard. Ensured real-time interactivity, secure data handling, and smooth user experience.

LANGUAGES

- ENGLISH (BASICS)
- BANGLA (NATIVE)
